## MINING

### PAINE, WEBBER & CO.'S GOSSIP

Salt Lake—An important strike has been made in the group of claims recently acquired by the U. S. Smelting and Refining Co. in Contact, Nevada. The ore is high grade copper and is said to carry average values that will compare favorably with the ore being extracted in the Amalgamated properties in Butte.

Quincy's October output was 1,550 tons.

When F. Augustus reached Utah it is said that the initial unit of the Ohio Copper Co.'s mill will be ready for commissioning. General manager Colin McIntosh is putting forth every effort to have the treble completed so that the gap between the mine and mill will be closed and the line completed for bringing ore out from the Missouri tunnel to the reduction plant. The first and second sections of the mill are completed and they have transferred the construction forces to the third unit and the entire plant will be completed just as fast as each section can be started up. They expect to treat 3,000 tons of ore daily, which is several hundred tons above the capacity of the plant.

James McLean of Phelps, Dodge & Co., within a few days will be elected a director of the Greene-Canaan company and George Notman, also of Phelps Dodge and Co., will be elected a director of the Greene-Canaan company.

The Nevada Cons. fiscal year ended Sept. 30. Net earnings from operations, \$1,646,062. Total income, \$2,236,661. Net surplus to profit and loss, \$2,061,870. Pounds of copper produced, 34,527,823.

It is understood that the United Metals Selling Co. on Monday disposed of about 19,909,000 pounds of copper, making the total transactions for that company for three days at upwards of 40,000,000 pounds. The company is now quoting 13 1/2 cents for electrolytic. The copper metal market is a shade firmer and a moderate business is reported around 13 cents. Quite a number of inquiries are in the market, which may result in further transactions in the metal.

The Butte and Bunkala made its first big shipment of ore last Saturday when it sent five hundred tons to the Washoe smelter. A similar shipment will be made this week.

### GAY & STURGIS GOSSIP

Calumet, Mich., Nov. 4.—Today's copper market was the most active we have seen for months, and it demonstrates fully that something is doing that will be of great benefit to the copper industry.

Butte Coalition, Greene Cananea, Miami, Superior Copper, North Butte and U. S. Mining were in most demand. Superior Copper was the special feature of the Lake issues on the announcement that plans will be completed within 60 days for doubling the present output of rock and also for a much larger recovery of mineral in the mill.

Curbs were moderately active with China, First Nat'l Copper and Cactus the leaders. Onco was wanted at 2 1/2 on favorable report from diamond drill operations.

Each day a better demand for copper stocks is seen and better prices for the metal seem only a matter of weeks.

New York, Nov. 4.—National Copper Bank declared regular quarterly dividend of 2 per cent payable November 15 to stock of record Nov. 10.—Dow, Jones & Co.

New York, Nov. 4.—There was some very impressive buying of the better class of curb coppers yesterday.

Greene Cananea, Miami, Nevada, Gloroux and Butte Coalition being featured.

The sudden rise in Amalgamated at the close is expected to stimulate considerable bullish activity in curb stocks.

The break in La Rone was credited to rumor of reducing dividend.

Int. Smelters sold at 150, an advance of 15 points over last sale.

The stock is very scarce in the market.

United Copper sold off 1 1/2 per cent on comparatively little trading. There was no news to account for the weakness.—H. & W.

New York, Nov. 4.—The copper metal market is more active and firm and sales of round amounts are reported at 13 cents which is now the price at which business is being done. Although some of the leading interests continue to quote 13 1/2 cents for electrolytic it is said that more inquiries are in the market than for some days past and the prospects are that further transactions will be made.—Dow, Jones & Co.

Boston, Nov. 4.—The News-Bureau says: Information comes via Salt Lake City that the directors of the United States Smelting, Refining and Mining Co. are likely to increase the dividend rate on the common stock at the next dividend meeting; \$2 per share per annum is now being paid. An increased distribution will be justified because the company on 13 cent copper and 50 cent silver is earning at the rate of about \$8 per share for the common stock after meeting preferred stock dividend requirements.—Gay.

## STOCKS

Boston.—While the copper that was stronger and more active today speculation broadened out and almost every stock shared in the rise. Copper Banks advanced 8 1/2 with very little stock offered. North Butte was heavily traded in around 61, closing slightly weaker when the traders tried to liquidate. We believe this copper market is on a firm basis and that we shall see materially higher prices before we have any reaction. Now buying is coming in freely and will certainly make a sharp

### advance.—Paine, Webber & Co.

### Gay & Sturgis says:

Boston, Mass., Nov. 4.—Coppers started off this morning in a very active and robust manner. Persistent buying of Amalgamated, Coalition, N. Butte and Greene-Canaan occurred, and Utah Copper, Superior and the list generally were notably strong. The idea is growing that a merger of some kind or not of the Cole-Ryan stocks are to be merged with Amalgamated and that to give this deal a send-off, the 100,000 tons of surplus copper abroad will be bought up and the price advanced. Certainly the action of the market indicates that something of importance will occur. Money rates eased further and the manipulators in Steel common were again active. An evident intention to put prices up again is apparent. The outside following, however, is not extensive and the public are selling as many stocks, especially coppers, as they are buying.—Irving J. Sturgis.

### UNLISTED STOCKS.

J. A. Minnear & Co. say today: Steel was the feature today in the New York market, when it crossed 92. The markets seemed honeycombed with manipulation, for the early advance was confined only to a few specialties. Amalgamated was well bought crossing 88. Coppers were fairly active but showed little change for the session. Chief was an active curb trader all day. There was some re-adding in Superior and Boston and it sold down to 13 1/2 just before the close. S. & P. touched 17, Santa Rosalia was not quite so active but held its price well, Miami sold freely at 17 and is being supported to make the new bond issue attractive. Greene-Canaan was subjected to the same quiet absorption that has been going on for the past few weeks and sold above 12. A meeting of the Calumet & Corbin directors was held yesterday afternoon, but developed nothing important. Both A. & M. and S. & G. were a trifle easier.

## Causes Debility

Here are Facts Backed up by a strong Guarantee

Cataract causes debility. In our opinion, most people suffering from general debility have cataract. Such cases of debility cannot be completely cured by medicine not designed to eradicate cataract. In every case where our remedy fails to give entire satisfaction we will not charge a cent for the medicine employed during the trial. Now, surely no one should hesitate to believe us or to put our claim to a practical test under such conditions. We will take all the risk; no one else can lose anything by the transaction.

We make these statements and this offer because we know and have time and again proved that Renali Muen-Tone rarely fails to do as we claim. It is not a cure-all prescribed to cure every disease that flesh is heir to. It is intended for one purpose, i. e., to cure cataract by assailing the diseased condition in a reasonable, scientific way, which is to employ agents that have been found to have the tonic and alternative power to correct faulty metabolism (tissue change) and to stimulate and help nature overcome the cause or causes of cataract. This being done, appetite increases, nutrition improves, weight is gained, comfort of body is attained and life's work taken up with the zest natural to the perfectly healthy individual.

We want you to try Renali Muen-Tone. Follow directions and take it regularly and consistently for a reasonable length of time. Then, if you are not satisfied come back and tell us and the money you paid for the treatment will be returned without any argument whatever. Renali Muen-Tone comes in two sizes, 50c and \$1.00 a bottle. Sold only at one store. The
